

Closure Impact Analysis Report Chingford Branch

HSBC UK is a founding signatory to the industry wide Access to Banking Standard introduced by UK Finance in May 2017 (and previously the Access to Banking Protocol).

We continually review our branch network to ensure our branches are in the right locations which reflect the long-term changes in the way customers choose to bank with us. Retaining a sustainable branch network is extremely important to us and we need to ensure it is fit for the future. Over the past 5 years the number of customers using HSBC branches has fallen by a third. Nine in ten customers' (90%) contact with the bank is now completed via the telephone, internet or smartphone and 99% of cash withdrawals are made at an ATM. The emergence of social media as a tool used by customers has also been stark, with a five-fold increase in cases being handled over the last two years.

As a result, we sometimes have to make the difficult decision to close branches. This is, however, after following an extensive evaluation of external and internal information, which includes a full study of customer activity at the branch, the availability of alternative services in the area and any other market conditions which may have an impact on the usage of the branch.

We have therefore decided to close Chingford branch on 09 October 2020. The following summarises some of the information used in reaching this decision as well as how you will be able to continue to access your usual banking services once your local branch has closed.

Assessment of the impact of the closure on customers

As part of the analysis used to inform our decision to close this branch HSBC UK considered:

- The number of personal and small business branch users affected
- The age profile of branch users (i.e. both older and younger users)
- The number of vulnerable and other branch users who are more dependent on their branch than others (including but not limited to customers that are disabled, elderly, digitally excluded and/or lower income customers)
- The distance to alternative banking services

The availability of alternative ways to bank for customers who live locally or travel to use this branch is considered suitable.
