

# Is my money safe?

## **Audio transcript**

When you bank with HSBC, you're protected by our global security network and the FSCS.

Your eligible deposits with HSBC UK Bank plc are protected up to the FSCS compensation limit by the Financial Services Compensation Scheme. The £85,000 limit applies per person, to the total of any deposits you have with HSBC.

This means covered deposits will be automatically reimbursed by the FSCS if your bank, building society or credit union can't meet its financial obligations.

Safeguarding against fraudulent activity

HSBC Safeguard offers world-class protection for your money and savings against financial crime and fraud. Our Digital Security Promise means we'll look out for unusual activity on your account, 24/7.

You can help keep your money safe by regularly updating your information and taking particular care when sharing your personal details.
